## EXTREMISTS LOSE IN ELECTIONS TO GERMAN COUNCIL

Berlin Report Bolshevik Supporters Are Beaten At Polls

## DEMAND CONVOCAION OF NATIONAL ASSEMBLY

Attempt to Establish Dictatorship Also Is Lost by Big Vote

(ASSOCIATED PRESS TELEGRAM) Berlin, Monday, Nov. 25.—Reports of strength between the conservative element and the independent "Bolshevik" socialists in various places in Germany continue to indicate that as far as mere numbers go the extremists are almost negligible.

The elections to the soldiers and workmen council in Dresden on Sunday show that the extremists polled only 4,500 votes against 56,400 for the old socialists. Both groups of independent won only three or four seats in the council of 50. Fuller reports from Bremen show that the movement in the coast cities already has turned into a more conservative channel. A meeting of soldiers, workmen and peasants' councils, representing Bremen, Hanover, Hamburg, Oldenburg, Posenburg, Osnabrueck, Wilhelmshaven and a number of smaller places, in the provinces of Hanover and Schleswig-Holstein, adopted a resolution declaring that these councils would stand behind the present government and demand the convocation of a national assembly. The resolution was adopted by a vote of 81 to 20. There also was a resolution for the extremists at a meeting representing the Tenth army corps at Hanover where by a vote of 140 to 4 a resolution was adopted against efforts to establish a dictatorship and demanding the summoning of a constituent assembly.

Soldiers from the front are beginning to arrive in Berlin and men who have conversed with them express themselves optimistically as to the result of their arrival as regards its effect upon the preservation of order.

It may perhaps be considered an indication of the general public's faith in the conservatism of the soldiers that German and Prussian flags are flying from the street cars. Elsewhere the emblems were not disturbed.

## PAUL EDWARDS AMONG WOUNDED

Licking Soldier, Transferred From 34th Artillery, Gassed While in Action in France.

Following the official notification received from the French, Paul Edwards, had been seriously wounded. Mr. and Mrs. E. Edwards of 1714 W. 12th St., received a letter from him yesterday.

He was wounded on October 27, as a result of gas which he had been exposed to. The letter from him was written on November 4. He stated he had been gassed and was in a hospital. His eyes were affected and he was blind temporarily, but was improving.

Private Edwards was a former student at Ohio State University, and went overseas with Battery B, 34th F. A., but was transferred to Battery E, 11th regiment, after the first gas attack, and it was in action with them that he was injured.

## 2 NEWARK MEN AMONG WOUNDED

Benjamin Robe and Thomas Giblin Mentioned in Today's War Department Lists.

Two New York men are mentioned in today's casualty lists. Benjamin F. Robe, of 79 James street, is reported as severely wounded and Thomas Giblin, whose address is given as Clearfield avenue, resided in Garfield avenue, this city, and he is listed as wounded under the name of Robe.

Miss Grace Robe of 79 James street, received word that her brother, who is with the 13th engineers, had been wounded severely. But previous to that she received a letter from the captain of the organization stating he had been wounded severely. He is 23 years old and enlisted at the Columbus barracks. He left for France last December.

## KOLCHAK GIVEN RULE OF RUSSIA

Admiral Alexander Kolchak.

Admiral Alexander Kolchak, who was commander of the Russian Black sea fleet before the revolution, has been named dictator over the all-Russian government at Omsk.

The resolution was adopted by a vote of 81 to 20. There also was a resolution for the extremists at a meeting representing the Tenth army corps at Hanover where by a vote of 140 to 4 a resolution was adopted against efforts to establish a dictatorship and demanding the summoning of a constituent assembly.

## STATE DOCUMENT PROVES PLOT TO START GREAT WAR

Bavarian Minister to Berlin Reports to His Government on Conspiracy

## REPORT IS PRINTED IN NEWSPAPERS OF MUNICH

Shows Futility of Efforts to Halt Plan for War of Conquest.

(ASSOCIATED PRESS TELEGRAM) London, Monday, Nov. 25.—(British Wireless Service)—Publication of official reports from the Bavarian minister at Berlin to his home government confirm evidence already in the hands of the entente that Germany and Austria conspired to bring about the war. It was for this reason that the terms of Austria's ultimatum to Serbia were made so drastic that hostilities were bound to follow.

These revelations have been published in Munich after permission had been asked by the Bavarian premier and foreign minister of the German federal government. They are in the form of a report sent to Munich on Feb. 18, 1914, by Count von Lechfeld, the Bavarian minister at Berlin.

According to the report, Count von Lechfeld said that "Serbia obviously cannot accept such conditions as will be laid down, and that as a consequence, there must be war." He declared that action on the part of Austria could not be long delayed, "for that might give Serbia, under pressure from France and Russia, an opportunity to offer satisfaction."

"In a telegram to Munich from Berlin on July 31, 1914, Count von Lechfeld said that Sir Edward Grey's efforts to preserve peace would certainly not succeed in arresting the course of events."

Later the same day he wired information as to ultimatum to Russia and France, forecasting their rejection by both nations and told of plans to hurt Germany's armistice against which, he said, would be "overwhelmed in four weeks." He said that the morale of the French army was poor and that it was poorly armed.

Admiral von Lechfeld's Bavarian minister outlined Germany's intention to violate the neutrality of Belgium.

The chief of the general staff has declared that even British neutrality will be paid for too dearly if the price is Belgium. An attack on France is possible only through Belgium.

## VICTORY BRINGS SMILES TO WAR LEADERS ABROAD

Marshal Foch, General Pershing and group in Paris.

The French folk were confident of victory in the end even in the darkest hours of the world war. The coming of General Pershing and the American army strengthened that confidence. And when the final triumphant drive of the allied forces brought Germany to her knees the grim determination on the faces of the leaders and every Frenchman and Frenchwoman turned to smiles. In the photo, front row, left to right, are Marshal Foch, General Pershing, and others.

## NEWARK BOYS IN BATTERY B WERE SAFE 10 DAYS BEFORE ARMISTICE

Letter Tells of First Month of Battery's Experiences at Front—Good Shelter From Enemy Shells Was Provided For Gun Crews

Newark and Licking county boys with the 224th regiment, heavy field artillery were all safe and well November 1st, ten days before the signing of the armistice, according to a letter received today from Leo H. Prior, a member of the battery. At that time the battery had been in action one month, having taken up positions at the front on October 1st. In the month that followed the battery boys went through all the thrills of modern battle, except going "over the top" a thrill reserved for infantry units. Prior's letter describes bombardments "sent and received," air raids, marches, etc. He tells of the duties to which each man is assigned at the front and gives side lights on the lives of Licking county men in the closing days of the great conflict. "His letter," dated November 1st, "The Front," "somewhere in France."

The 224th regiment H. F. A. in command of Colonel Ashburn bid adieu to Camp De Coetquidat the large military camp the latter part of Sept. for our destination, the front. Days and succeeding nights of marching with pack on back told of a journey onward into "no man's land." Our first impressions as we went on were astounding in that one could even taste and smell the atmosphere of "going to war" in advance of the sights and sounds so plainly evident. Comparatively real soldiers we thought yet—"It was not the cold that made us shiver," the horses regiment moved onward along shelled villages and towns, with whine of shells passing not far distant. "German" shelling roads, the sound of Boche planes overhead on a bombing expedition and then shortly to see the bombs drop near a roadway. Across the way in the silence of the night, the roar of the big guns illuminating the sky told of our destination. "Over There" somewhere was where our battle ground was to be.

October days found us in our first position, which was of but a few days duration, as well as the second position, but there we had "our first break" in real thrills, high velocity shrapnel shells with a whew-whew from the enemy flying over head and quite close around at that time. "That was the first time that we saw the enemy's position and the noise of our barrage and the

whizz of those coming over. The sensation was that of beating it up an alley trying to dodge a mean creditor.

Due to the retreat of Germans the regiment moved to its third and present position. One sees every place, large shell craters, tangled masses of barbed wire, wreckage of splintered trees and all. One might write pages of things interesting but for reason of compass cannot, but will glide over in comment that battery position is of much importance and everything is a hurry up method of getting into it. There are a thousand and one things to do but the making of gun platforms to set guns and to camouflage are of first importance. Secondary to dig over trenches of protection for gun men.

Our first two positions had sufficient rest dug-outs for all men but our new shade made for work of individual digging of a dug-out, or protection of some sort from shrapnel shells. Strange but everything at the front soon becomes customary and common place. Shells from the enemy considered close in our first experience, now are viewed in distance from us not close at all. One falling about 30 feet from a battery would awaken us to almost a "hit" the writer imagines. Many of the German shots are "duds" or those which for some reason or other do not explode. One pays little attention now to every day scenes. The Boche planes flying around overhead, the doughboys marching in the German prisoners who, by the way, are made to carry the boys' packs and last but not least, the weather and the mud.

Comment in reference to the boys will be of interest, so will tell of their work as far as permissible. At Camp De Coetquidat, Battery B made the reputation of having the best gun sections in the entire 15th brigade. Let alone the 224th regiment. The chief of gun sections is Sergeant Steve Costello, "Betty Simpson," Bill Lanham and Geo. Williams. Now at the front, the latter, Sergeant Costello is in charge of the first gun section. Steve possesses all the qualifications necessary for chief of sections. He has a sound knowledge in all parts of gun, fine mechanic, and has all round ability, and noted for his nerve, Irish wit and alertness. (Barrage just started.) Under worst conditions am writing. Excuse writing. You will not doubt appreciate the effort and how "Those who make up his section from (Continued on Page 2, Col 2)

## 7,000 AMERICAN TROOPS EMBARK FOR HOME SHORES

Air Training Units in England Are On High Seas

## THREE LINERS CARRY RETURNING RECRUITS

Only Medical Service Units Will Be Retained In England

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 25.—Nearly 7000 American troops are expected to arrive in New York before the end of this week, constituting the first units of the expeditionary forces to be returned home.

The troops consisting of 382 officers and 6614 men of the air service and other training detachments, General March, chief of staff announced yesterday, left Liverpool last Friday and Saturday. The units all of which have been in training in England, are being brought home on three British liners—the Minnekahda, Lapland and Orca. Details of the plans for demobilizing these units have not been announced. General March, however, gave notice that a few of the units will be permitted to sneak into the country. So far as possible, it is presumed, the units expected to arrive this week will be sent to camps near the home ports and the demobilization will take place at those camps.

The 7000 now en route home will be followed soon by other units of the 20,000 American troops in training in England. Since the departure yesterday that the homeward troop movement will be limited only by transportation facilities.

## ADMIRAL MAYO RETURNING

London, Monday, Nov. 25.—In planning the withdrawal of American troops from England soon as possible, American army officers have decided that the only units which will be sent home are those of the medical service and the staffs of the rest camps. It is hardly probable, however, that these rest camps will be required as troops are being sent home directly from France. Two months will be sent home as soon as suitable ships are available. When the Mauretania sailed today she took between 5000 and 6000 from the flying corps. It is planned to dispatch a steamer to America every day this week.

Admiral Henry T. Mayo, commander of the Atlantic fleet, is returning on the Mauretania. "I am returning to America after the evacuation of the British and Italian navies," said the admiral before sailing. "The American navy is very proud to have been associated with the allies in the latter part of the war. We appreciate that the American navy has won this wonderful victory and it is impossible to pay too high a tribute to the Great British navy."

## WILSON TO STAY FOR ONE MONTH

Push Preparations For the Presidents Trip to Peace Conference in France Next Month.

(ASSOCIATED PRESS TELEGRAM) Washington, Nov. 25.—About one month is the time President Wilson expects to be in Europe for the opening of the peace conference. He has been discussing the matter with his advisers, but it was not until yesterday that the president plans to be back on American soil within six weeks after his ship sails for the other side. It is expected that he will arrive in Italy, and then proceed to France, as well as Ambassador Jusserand, of France, and the American peace delegation will cross on the ship with the president.

Preparations for the president's trip are going forward rapidly at the White House, though they still are surrounded with secrecy and no one pretenses to know either when the ship will be made or how long it will be up there. An announcement by the president himself of the personnel of the peace delegation is expected in a day or two.

Among many messages received from England, France and Italy, urging Mr. Wilson to stay, the most unfavorable interference with his plans, is understood to be one from Lord Northcliffe, earnestly suggesting that all objections should be disregarded because the president's presence is essential.

## PUPILS VIEW BODY OF SENATOR ATWELL

Pupils of the schools at Cardington this morning viewed the body of their late superintendent, Washington Lincoln Atwell who died Sunday. He was a former state senator from this district and was 56 years of age. The body is to be taken to Columbus and funeral services will be held at 2 p. m. at the residence of his mother-in-law Mrs. Everett, 330 Oakwood Ave. By request of Senator Atwell, Rev. J. J. Toddall will officiate. A son, a daughter, two sisters and a widow survive.

## GERMANS STILL LOOT TOWNS IN THEIR PATH

American Army of Occupation, Monday, Nov. 25.—Most of the Germans in the retreating army, the retreat of which the Americans are following, have shown keen eagerness on reaching German soil to return to their homes immediately and engage again in their civilian occupations, according to reports. A movement the other way by Alsacians and Lorrainers who have been in the German army is in progress. Many of them have been released by the Germans or given passes by soldiers' and sailors' committees and have been reaching American lines.

Not a great deal of discipline among the German troops moving along the roadways is reported. They are doing much as they please when the officers are not attempting to take order. There are instances of looting in various regions are occurring, according to accounts coming in, but most of these are individual cases, where a soldier or two steal a farmer's chickens.

The German commanders continue to communicate with the Third army by wireless, informing the Americans of the German progress each day. On Sunday the wireless was interrupted at times and the German command was unable to send a number of messages which it was eager to get into American hands. Two officers with a white flag crossed the bridge over the Moselle at Wasserbillig, therefore, carrying the message. These were the last Germans to set foot on the line held by the Americans. The officers remained only a few moments and they said they had a long way to travel to reach their regiments.

Columbus, Nov. 26.—Secretary of State William D. Brown, who is of first head of the Bureau of Automobile Registration, has stated to avail himself of the machinery of his own office. His automobile has been stolen.

## DAVID WALLACE CALLED BY DEATH

Well Known Resident Succumbs to Infirmities of Old Age—Ill-Long Time.

David G. Wallace, a well known resident of this city, died Monday evening. He has been in failing health for the past year and became bedfast two months ago. Death was due to infirmities of old age.

He was born May 25th, 1842, in Northern Ireland and was the son of Mr. and Mrs. Hugh Wallace.

He was at one time connected with the dry goods business of his brother Joseph L. Wallace here in the city. He leaves one brother, Hugh Wallace of Pasadena, California.

The following nieces and nephews also survive: Mrs. A. E. Foye, of Cleveland; Misses Margaret, Ella, May and Tillie Wallace and Dr. William Wallace of Pasadena, California; John Fyfe and Miss Mary Fyfe of Omaha, Neb.; William Fyfe of Lincoln, Neb.; Mrs. Fyfe Thompson of McCook, Neb.; and Mrs. Marga et Chatterly of Baltimore, Md.

The funeral will be held Wednesday afternoon at 2 o'clock at the Bradley undertaking establishment. Interment will be made in Cedar Hill.

## SHIELDS REFERS CRITICS TO SECRETARY BAKER

Harry F. Shields of Newark, was assigned to duty at the New York navy yard upon orders of Secretary of War Baker, according to a letter from Shields to The Advocate, dated November 22. Shields takes occasion to pay his respects to Newark people who, he says, interested themselves in his claim exemption from the selective service.

"Brooklyn, N. Y., Nov. 22, 1918. 'Your letter with the medal received this day. I appreciate your efforts in raising a fund for this purpose. The medals should be cherished by the men as a mark of honor throughout their life.

"In my own case, if appears to me to be downright hypocrisy to present such a thing to me in the name of the 'people of Licking county.' I have been accused of most any kind of crimes by a portion of the people you say contributed toward the fund, because I made a fight for my rights in the administering of the selective service law, as it dealt with me.

"I don't deny but what I did as thousands of others did who had good grounds for exemption. I used the means provided by our congressmen and senators in Washington when they made the selective service law. I was denied every right of claim through the efforts of some of Licking county's noble citizens, as they style themselves.

"After spending five months at Camp Sherman, I was assigned to special duty in the New York navy yard by orders of Mr. Baker, secretary of war, and now I hear that some of my caretakers are interesting themselves so much to find out how I came to be here.

"For these people's benefit you may publish this letter so they can take the matter up with the man I have just mentioned and if he considers it any of their business they may enlighten them as to why he gave such orders.

"Again thanking you for the medal, also for your efforts in locating me.

Sincerely,  
Harry Shields.

## YOUNGSTER HAD RIGHT SPIRIT

Newspaper's Appreciation of Work of "Our Boys" a Valuable Object Lesson in Patriotism.

Here is a story told by an Indianapolis woman:

"The other evening as I was walking over the long bridge that extends back of the Union station in Baltimore, my eye, searching for something interesting, caught sight of a small newsboy—just a little, dirty-faced chap that one does not look at twice. What especially drew my attention to him, however, was something unusual in the way he drew out one of his papers, folded it into very small compass, and tossed it over the railing into the freight yard below. My eyes involuntarily followed the direction of the paper, and as I peered over the balustrade I saw a stirring scene, numbers of big army trucks and scores of 'our boys' bustling round busily and cheerily unloading and reloading them. One of the soldiers was in the act of waving his hand in thanks to the boy whose paper he had just picked up.

"Much interested, I moved over to the little fellow. Under cover of buying a paper and getting change, I put a casual question: 'How do you expect to get your money from that soldier down there?' My little friend looked disgusted. 'I gave it to him' he instantly retorted. Then he turned to gaze again on the fascinating scene below, and added very softly: 'He's doin' more'n a cent's worth for us.'"

## HAD MODIFIED HIS DESIRE

After Experience in Airplane Man Decided He Would Prefer to Travel to Heaven on Foot.

"Does it ever fall?" finally quivered the novice as the airplane climbed higher and still higher.

"Only when I let it do so," answered the airman. "Now and then I drop her backward. Here we go!"

On the backward descent, a mile or more, the passenger clinging to the pilot with both arms and never breathed. At last the machine resumed its horizontal traveling.

"Great heavens!" gasped the novice with relief.

"Say, look here; didn't you say you wished to fly on high like a gliding sunbeam?" complained the aviator.

"Yes," admitted the passenger.

"Then shut up. You're going to get your wish."

Suddenly the airplane dived and looped the loop, then traveled upside down.

"Hold fast."

"What?"

"We are going to land."

Gently the airplane glided to earth. Released from his seat, the passenger knelt and lifted both hands solemnly.

"Once I prayed to be an angel," he said. "But it doesn't go any more unless on foot."—New York Times.

## Hold No Grudge.

Time brings many changes. Take for instance the fellows who volunteered their services when war was declared and who have since been promoted to be commissioned officers. Some of these men toiled in shops and offices and had to toe the mark for clerks or foremen to get fired. Then came the draft and these same clerks and foremen became doughboys and now take orders from their former office boys and employees. Some humorous stories have come to light from the nearby cantonments, but let it be said to the credit of the former office boys, they have not made life unbearable for their superiors, although they have had the opportunity to do so. As an illustration of this the other day a doughboy was serving meals to his top sergeant. As he did so he spilled some dressing from the salad. The sergeant noticed this and smiled.

"Just about a year ago I was serving you with soup," said the sergeant, at the same time mentioning the hotel where he had worked as serving man, "and you gave me the devil because it was cold. I'm not going to kick because you spilled the dressing. I'm going to treat you right." And that is the general spirit throughout the camps.

## Boring Pole Holes.

The tiresome and time consuming work of digging holes for telegraph and electric service poles is now at an end, says Scientific American. At least, there has been evolved a gasoline driven earth-boring machine which makes an average boring time per hole of one and one-half to two minutes. The equipment is mounted on a horse drawn truck and is operated by two men. In ordinary soil it maintains an average of 100 holes per day, each measuring five feet deep by 24 inches in diameter. The equipment consists of a truck, which carries a gasoline engine, driving mechanism and a huge auger which is slowly rotated and fed downward. The augers are furnished in sizes from 2 to 24 inches.

## Disdain Western Finery.

In reply to an inquiry from an American firm as to the demand here for lace goods and embroideries, it can be stated, reports the American consul at Yokohama, that as the Japanese women cling very tenaciously to their style of dress and as no use is made of lace or embroideries either in their dress or home furnishings, it is improbable that any considerable market can be developed in Japan for American-made lace goods or embroideries. The demand would be limited to the foreign residents here, who now number about 6,000, exclusive of Chinese, and to such goods as are not being manufactured in Japan.

## CLAYTON PRAISED FOR BRAVERY BY FRENCH

Mrs. P. J. Glancy, has received an interesting letter from her son, Reginald, a member of the 112th supply train. In it he speaks of Alex. Clayton, son of Mr. and Mrs. A. R. Clayton, of North Front street. "I have not heard from Alex. Clayton, only indirectly, for a couple of months. But at the last report he was O. K. and had received considerable commendable mention during recent action for bravery. He delivered ammunition to a French battery, when the French ammunition train had refused further to supply it."

Frank X. Neuchang, general president of the International Barbers' Union, addressed the meeting.

## English Women Help.

Over 50,000 educated women are now employed in Great Britain in dairy work, market gardening, poultry and pig raising, bee-keeping, work in public parks and gardens, the culture of special flowers and medicinal herbs, gardening at the various royal residences and country seats and ordinary jobbing gardening. It is marvelous how women who knew little or nothing about growing anything before the war have earned substantial sums of money by supplying some demand. One woman made \$30 last summer by selling small salad plants, such as mustard and cress, spring onions grown in boxes, and cabbage, lettuce, etc., to a military depot in her neighborhood. She had only a tumble-down old glasshouse, some wooden boxes and seeds at her command.—Providence Journal.

## Oppose Electrocution of Animals.

Considerable sentiment against the use of electricity as a means of putting unwanted animals out of the way is growing up among members of humane societies in various parts of the country. The popular belief now is that animals who are electrocuted suffer intense agony. Members of the Humane society of Kansas City, Mo., have been conducting a wide intelligence campaign in which opinions of persons familiar with electricity and experienced in handling it were obtained. These people firmly believe that electricity inflicts pain. It is said, and strongly advocate the adoption of some milder way of putting animals to death.

## Gold and Palladium.

A gold-palladium alloy, under the name of "Palaug," has been put on the market by a firm in California, according to Commerce Reports, and is offered as a substitute for the more expensive platinum-iridium alloy generally used by chemists. A crucible of this alloy has been tested at the United States bureau of standards. The melting point is 1370 degrees Centigrade, which corresponds to that of an alloy of 80 per cent gold and 20 per cent palladium. The alloy is very promising as a substitute for platinum for many laboratory purposes.

## AMUSEMENTS

## GRAND

Spurred by the villagers, among whom he had lived an upright life for two years, when they learned he had been a bank robber, John Olsen, discouraged, gets out his tools and breaks into the bank and piling all the money sets fire to it in revenge for their lack of charity. But before the bank notes are more than scorched, the detective who had sent him up before and the girl he loves, enter the bank. What happens to Olsen and how he finally proves he is all a man is shown with great dramatic force in "All Man," the Vitagraph Blue Ribbon Feature, which will be seen in the Grand theatre on Tuesday and Wednesday. Harry Morey and Betty Blythe have the leading roles in this powerful drama of love and mystery.

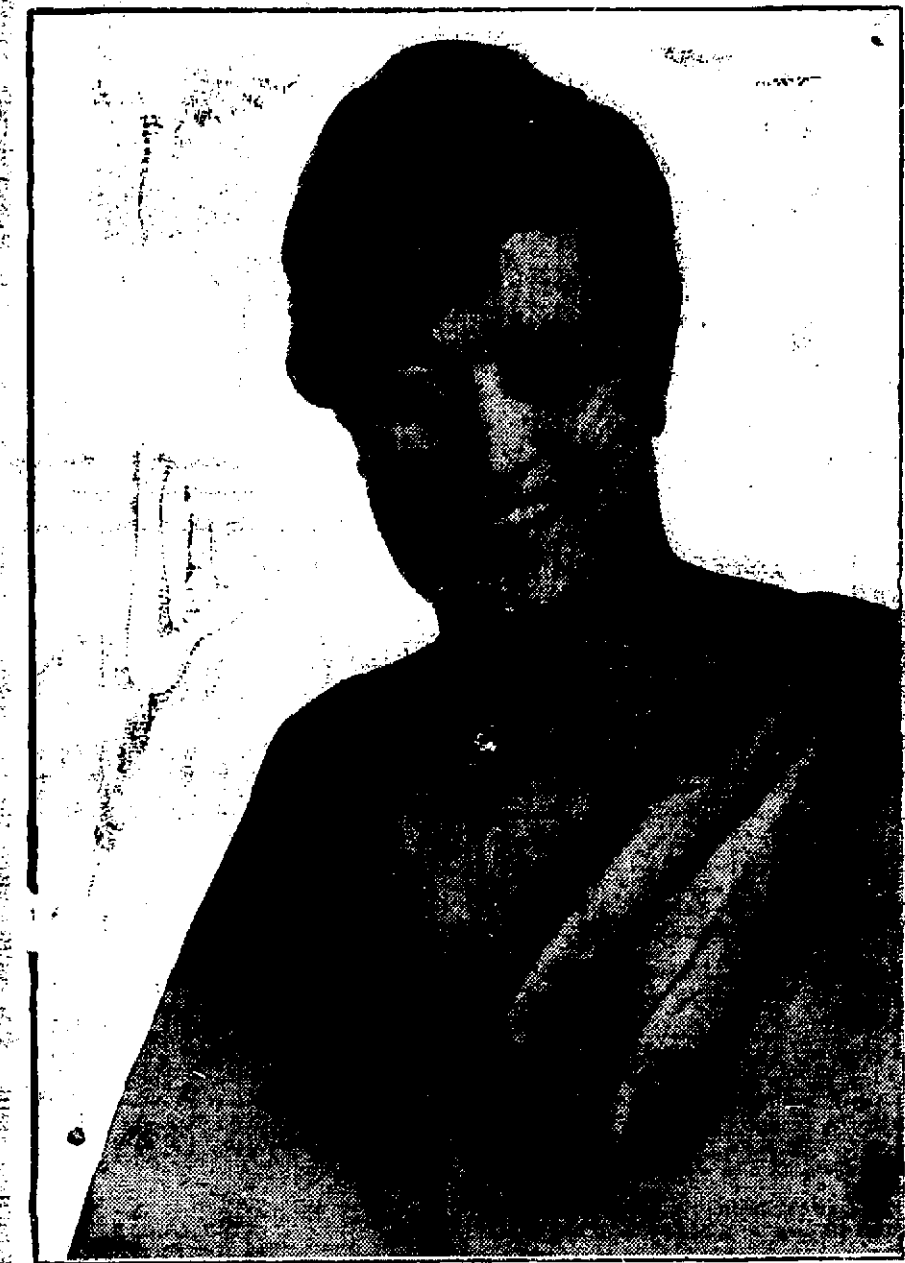

## ALHAMBRA

Tonight, Last Times.  
A tremendous smash at the walls of hypocrisy which surround the lives of many of us is given by Theda Bara, the famous screen star, in her latest super-production, "When a Woman Sins," which is now being shown as the headline attraction at the Alhambra theatre.

ing, "Mrs. Temple's Telegram," is brimful of good laughable situations and the company seemed to "put it over" in good shape. Charlotte Mayne Claire as Mrs. Temple is not unlike other loving wives, and refuses to believe a truthful story told by her husband about his absence from the home ever right. He then tells a more plausible one which she believes and in her course of confirming the veracity of the latter one many amusing situations present themselves. Mr. Gavin Donohy, as Jack Temple, Edmund Barrett, as Frank Fuller, Miss Bessie Hawthorne, as Mrs. John Brown, and Miss Alice Bowditch as Mrs. Frank Fuller all were capable support to Miss Claire. Vaudeville specialties were introduced between the acts by Joe Angell and Miss Hawthorne. The same bill will be presented today and an entire chance of program tomorrow.

Sins," which is now being shown as the headline attraction at the Alhambra theatre.

Playing the role of Poppea, a notorious wanton, Miss Bara delineates with great power and yet with touching appeal the human, lovable side of a woman whose life threads the devious paths of pleasure. The woman, though many men lay their wealth at her feet continues to love a young divinity student. His Puritanical training, however, will not allow him to countenance her, until at last, in despair, she is about to end her life. Then he sends his forgiveness in a bunch of lilies.

## "A Night in Honolulu."

Miss Rena Halifax, who plays the Hawaiian dancing girl in "A Night in Honolulu," which comes to the Auditorium next Saturday, is a young woman who made her way on the stage by careful study. Players are often asked how to get on the stage, and how to succeed after they have managed to secure an engagement. It seems a question which is always being asked by folks outside the theatre. The inevitable question was put to Miss Halifax and the interviewer found the young lady had very definite and set ideas on the subject of her profession. The only and practical way for one ambitious to learn the ways of the stage is to "act" said Miss Halifax. The various schools of acting may be well enough in their way, but my observation of their graduates has been that they are stuck to fit into a role than a person who has had no training at all. The Hark company is the best school which can be found in the country today, while there is little chance for study and characterization, still it does give the student the opportunity to study and see the result, calm in emotions and gestures have on audiences. Getting to know the temper of an audience proved my greatest difficulty. Finding our audience and forcing response from it is one of the great secrets of winning success.

## Pollyanna.

Next Monday night is "Pollyanna" night at the Auditorium theatre. You will meet there all who have a feeling for the better things of character and life. The principle of happiness which does not eat itself away in selfishness will glow like a wild flower, and none will be so poor in spirit that he shall not leave the scenes of gladness with a feeling that his hard literal world is no longer a thorn. All the bands and trappings of toil will be loosened for the evening by the hands of imaginative sympathy. The spirit of play will lead the way, and curling and snoring with the joy of living not even a shadow of care can get by the gates of your heart. It will be a night at the theatre that will cling to memory like ivy and harvest thoughts that will put a tonic quality into living. The essence of happiness will be yours by bringing others to enjoy the red letter night, and learn "the glad game." Get your seats early, and be glad. The appeal of Pollyanna is so absorbingly human and refreshing no one can afford to miss it. In the cast that will present the glad play in Newark, Klaw and Er-

lange, and George C. Tyler are sending players that are known here.

Miss Madge Bolamy, the youngest leading lady on the American stage, will play the leading part, that of Polyantha Whittier, and prominent in her support will be Gordon Johnstone, John Webster, Fanchon Campbell, Katherine Robet, Helen Westensky, George Lindsey, Master Thomas Deely and others.

"The Things We Love."  
Wallace Reid, Paramount Star and well remembered by his clever work in "Carmen," "Joan the Woman," "The Woman God Forgot," "Nan of the Music Mountain," "Rimrock Jones," and others, comes to the Auditorium today and tomorrow in "The Thing We Love." In this he is supported by that talented actress, Kathlyn Williams, well known to picture fans.

Added features are seen in the one reel special Red Cross Feature, "The Red Cross No Need in Germany," a most interesting subject. Then for laugh seekers, a comedy that is new, "Ladies First," in which Chester Conklin and others will make merry for 30 minutes. The Auditorium Orchestra is better than ever and the management has added an extra instrument.

## GEM

Wednesday.  
A star combination of author, director and leading woman of extraordinary strength, embracing Eugene Walker, Julius Steger and Charlotte Walker, make "Just a Woman," to be shown at the Gem theatre a photoplay attraction of unusual interest. The names of three persons so eminent in their respective fields as Mr. Walker, Mr. Steger and Miss Walker linked together in the creation of a photodrama is sufficient guarantee of its compelling appeal, its efficient construction and artistic finish.

## OUR LEGISLATORS.

The visitor who witnesses a session of congress is commonly surprised to find how small the attendance is. It is common to have important matters debated with nine tenths of the members absent. Yet the newspaper correspondents say the congressmen are a hard working class of men. When absent from the house, they are not usually loafing or enjoying sporting life. Most of the men spend a great deal of time running on little errands for their constituents. Hundreds of people write them for help in getting appointments to office. They have to see visitors to the Capitol city, secure chances for them to meet the President or other officials, entertain them socially. They have to find public documents for the debating societies, and chase around on more or less frivolous errands.

The members of our state legislature do not have so many calls on their time, as their constituents are smaller. The state government has comparatively few offices to distribute. But a good many needless calls on their time are made.

It is a disadvantage to the public interests when legislators have to spend on small personal matters time that should go into study of vital public interests. They ought to attend all sessions of the committees to which they are severally appointed. They should be present most of the time to hear public matters debated. The tendency now is for them not to look into matters much themselves, but act under the direction of party leaders.

If they spend more time listening to the discussion of these matters, they would be unwilling to leave all these matters to the dictation of a few managers. So if we want intelligent work from our legislators we must set them free from a lot of small personal detail that now takes up their time.

Some people think home life will seem humdrum to the soldiers. One suspects however, that after sitting up all night to see if the Boches bombers were coming over, they will be perfectly content to nod off to sleep in a morris chair and go to bed at 9 o'clock.

There seems to be no basis for the claim that the war has upset our social fabric, as the ball games are to be resumed next summer.

## WHEN A FAMILY NEEDS A FRIEND

In the Absence of Doctors Nobly Gone to War, After Influenza, the Grip,

These wonderfully useful medicines, Hood's Sarsaparilla, Peppermint and Hood's Pills—comprising the new combination family treatment—are warmly recommended.

If taken regularly, Hood's Sarsaparilla before meals, Peppermint after meals, they are reasonably sure to keep a family in health and prove to be reliable and always ready friends. They purify the blood, build up strength and regulate the system. If all, or any one of you, think you need, from your druggist today.—Adv.

## "BACK TO SCHOOL."

The Children's Bureau of the Department of Labor is now urging children of school age to go back to their books. A great many of them, tempted by high wages, quit their courses of study during the year. When the work was so badly needed to help win the war, people hated to discourage them.

The young folks who have suddenly found themselves able to earn good money hate to quit. It seems so pleasant to have the easy dollars rattling around their pockets. They can stand so many treats and enjoy so much sporting life.

They can't see why book education is necessary, as so far they have got good jobs without knowing much history or geometry or civics.

Conditions will change soon. The soldiers will return and claim many of these jobs. Employers will not take boy and girl labor if they can get mature help. Boys and girls that left school at fourteen or fifteen will have to take simple positions that call for no brains and originality, and which in normal times give good pay.

These young people, in so far as they can reasonably be spared from positions where they are now working, would better go back into school before the year is farther advanced. If they stay out till next fall, they will find it hard to go back. Their former classmates will have moved on, and they will feel humiliated at having to drop back with younger children.

The government discourages children under 16 from leaving school. Committees are to be organized all over the country by the Child Conservation section of the Council of National Defense, to get the children back to their studies so far as possible. Employers of labor should cooperate by refusing to hire those too young to go to work. Parents should make many sacrifices in order to give their children a decent life training.

## ADVERTISED STORES.

That advertised stores succeed because it speaks with strong confidence of the merits of its proprietor.

When a store fails to advertise, it must be for one of three reasons: First, because the proprietor thinks the public will not see his notice; second, because the proprietor thinks they will not believe it if they do see it; or third, because the proprietor feels that he has no goods of such exceptional value that he can persuade the public to come in and look at them.

The first reason is valid only if a merchant is considering some paper of small circulation. The second and third reasons indicate lack of confidence on the part of the store in its goods.

No one would have the courage to put money into advertising unless goods had demonstrated their value in practical experience. The public feels in buying advertised goods, that it is getting something that has made good.

The girls who have been making surgical dressings want to know what they shall do now? We hereby notify them that an embroidered collar box with hand made tassels and cross stitch ribbons is not absolutely necessary to our comfort as a Christmas present.

The best welcome for the returning soldier is not the brass band and the parades and the speeches of distinguished citizens, but the notification from the boss that he hang up his hat on the old peg the next Monday morning.

Congress has the easy problem at this session of raising everyone's wages, reducing everyone's hours of labor, and cutting down the high prices and cost of living.

## THE DOOMED HOHENZOLLERN.

(Washington Post.)

The disposal of William Hohenzollern and his son, the former crown prince of Germany, is the question that cannot be set aside. The people of Germany as well as the peoples of allied nations, are entitled to a decision in the case of these liberticides who are hoping to escape punishment for the greatest crime in the annals of mankind. The Germans are apprehensive lest the Hohenzollerns may effect a counter revolution and install themselves again in power, thereby calling down upon all Germany the wrath and retribution that would surely follow. The allied peoples fear that so long as the Hohenzollerns are alive there will be traitors and sympathizers who will assist them in fomenting mischief.

In addition to these sentiments, there is the fundamental feeling of justice that resides in all hearts, which has been outraged beyond imagination by the crimes of these nation slayers. The scales of justice will never rest evenly while the Hohenzollerns live unscathed. No expediency of diplomacy can invent for them an asylum secure from the demands of justice. The cry of humanity for a securing of the account will not be shut out by walls or boundary lines. The Netherlands government cannot afford to arouse the deep resentment of humanity by harboring these wretched and loathing their forfeited lives. If the Hohenzollerns are not to be surrendered to one side, they must be surrendered to the other, unless they cheat both sides by taking their own lives. The allies will surely make a demand upon Holland for the Hohenzollerns unless negotiations will be a mockery. They consist merely of talk while the peace disturbers are at large and unpunished. The first duty of the allied governments is to make sure that the Hohenzollerns shall never again be able to exercise their monstrous activities against mankind. If it should be de-

clared that it is impossible to insure against betrayal of trust on the part of guardians, so that it cannot be made certain that the Hohenzollerns would not escape, then the allies will inevitably reach the decision that these two lives must be extinguished.

## ADVERTISING UNITED STATES.

(Pittsburgh Gazette Times.)

The Luxemburgers never saw anything like the army that arrived among them last week, although they saw the Kaiser's in the first flush of victory and have been used to military forces of various allegiances for generations. The naive wonder and admiration reported by the correspondents gives only a hint of the tremendous power for advertising the United States that belongs to the olive drab columns now pouring over the border. The populations they pass through have the old world idea of compulsory soldiering and of an oppressive monarchial rule; they will have difficulty grasping the idea that armies more powerful, better organized and co-ordinated and breathing a spirit of satisfaction and confidence can be evolved by people who govern themselves. Their eyes are open wide as the regiments go by.

Although it is important to advertise the United States to neutrals like Luxemburgers, the main thing is to do some missionary work among the Germans. The latter won't like our men at first, it isn't natural that they should. But they cannot help admitting their power and seeing behind them a system of government superior to their own. The Army of Occupation is to be the greatest advertising force the world has ever seen. And its greatest weapon in fulfilling its mission is a purely negative one, the absence of the arrogance, insolence and cruelty that European people have been taught to expect from conquerors.

## AMERICAN CEMETERY IN FRANCE.

(Baltimore Sun.)

It has been announced that it is the purpose of the federal government to gather up the bodies of the soldiers who died in France and return them to their native land for permanent interment. Against this, as concerning his son's body, Colonel Roosevelt has made no objection. He says that he greatly prefers that the remains should rest near the field of honor where his son fell. It is possible, indeed very likely, that the parents of many of the soldiers who made the supreme sacrifice feel the same way.

In this connection a suggestion has been made which is worthy of consideration. It is that our government secure where the tract of land near the field where the American soldiers fell and there establish a national cemetery in which to gather the remains of the soldiers. Provision could be made for its permanent upkeep such as is made for the national cemeteries of the Civil war. All this, it is believed, could be accomplished by negotiation with the government of France. At the Antietam National cemetery in Maryland there stands upon an eminence in the center of the grounds a massive granite figure of a private soldier, clad with musket in hand, standing at rest, arrayed in the uniform of the time. It is a most impressive monument and memorial. Such a monument, in the midst of an American cemetery in France, surrounded by thousands of graves of those who fell upon French soil, fighting the battles of France, might be a fitting and perpetual reminder of the war in which the two great republics defeated the foes of liberty, and greatly aid in perpetuating the friendship of France and America.

## LLOYD GEORGE AND BRITISH POLITICS.

(New York Herald.)

The retirement of Lord Robert Cecil from the British cabinet is indicative of the new cleavage which are likely to occur in political circles in Great Britain now that the war is over. Lord Robert is believed to have resigned as the result of his disagreement with the government in connection with the question of the disestablishment of the Welsh church. The act providing for the severance of the Welsh church from the state was passed before the war, but its operation was held up. Lord Robert, like the rest of the Cecilis, is a conservative in politics and a staunch churchman and was bitterly antagonistic to the disestablishment bill, which was favored by Lloyd George, who is a nonconformist as well as a radical. Now that the war is over the question crops up again, and as the operation of the act involves the disestablishment of the Church of Wales, or as Lord Robert Cecil would regard it, the confiscation of its revenues—and as Lloyd George is determined to proceed with the operation of the act, Assistant Foreign Secretary has resigned.

## BOLSHEVISM.

(New York Tribune.)

It is now intellectually fashionable to be a little daft on the subject of Bolshevism. The fear that this strange and uncouthable disease will spread everywhere. In lieu of a specific, measures of the strictest quarantine are urged.

In Washington you find nearly everyone saying, and many believing, that the war ended just in time to save the whole world from the terrible experience of being swallowed up by the Bolsheviki. Remedies and palliatives are increasingly discussed.

The American people are immune to Bolshevism in its European forms. In this country it cannot take a typical form in what the doctors call "typhoid carrier"—perfectly harmless to its host.

We are a flexible people. Every citizen has his own Bolsheviki thought toward something, and enough of the spirit of revolt to keep him politically healthy.

## IT LOOKS LIKE RAIN, TOO.

(Cincinnati Enquirer.)

No sugar advice has ever been given than that found in the appeal of the managers of the Federal Government's agency for the sale of war savings stamps. This recites that "these are the days of large earning power, good business and economic certainty. Therefore, provide for a possible period when these conditions may change." Continuing the argument it is shown that labor is prosperous and the business interests profitable.

One of the attractive accompaniments of his situation is the ability of the savers in this prosperity. If they so desire, to become the owners of the soundest possible investments and thus to provide insurance against the day when change may come. These investments are the tiny bonds put out at the beginning of the war in order that all, even the meagrest financially, might share the welcome burden of supporting the government.

To provide the expenses of demobilization to continue the sale of these securities in 1919. The Ohio managers believe that a permanent investing class has followed the experiment last December, and that \$1,000,000 a week is the total amount laid away by these thirty persons.

There is no reason why this amount should not be doubled—say, quadrupled. When the readjustment comes after the war construction work has been completed these stamps and certificates will be found to be useful in more ways than one. It is the duty of all employees to impress upon their employers the advantages of investment at this particular time. Not only will it guarantee the future of the workers, but it will relieve the strain upon manufacture and commerce now created by the logical, though harsh, demand for heavy war taxes. Never has the advice that teaches us to prepare for a rainy day had more significance.

## OUR PRESIDENT IN EUROPE.

(Ohio State Journal.)

President Wilson is going to Europe to engage in arranging the final peace terms. There is some objection to his leaving the country, something no other president ever did. But there is a good reason for disregarding the precedent now, which is that he is needed there to insist upon the league of nations idea. That is the grandest thing in the whole process of peace and President Wilson's great fame is needed to help it along. It is the cap-stone of the whole war business—the guarantee to humanity that its battle is won. There will be no man there so well fitted to formulate the international peace league as President Wilson.

## On Guard!

The possibilities of the return of the influenza epidemic have been recognized by the medical profession and as a matter of course with these comes the further visitation, probably in milder degree, will be suffered. It does not necessarily follow that the influenza germ is on its way back to Philadelphia in force, but nevertheless, the revival of the plague at any nearby point suggests the possibility of its transmission to this city and emphasizes the previous warning that the health authorities, the medical profession, and individuals generally should be on guard against the reappearance and that immediate steps should be taken to prevent its spread and to prevent so far as possible a repetition of the conditions which caught the city unprepared in the early days of October.—Philadelphia Bulletin.

Let No More of These In.

On Sunday Victor Berger and other leaders of pro-German pro-Bolshevik socialism in this country held a meeting at the Coliseum, with an overflow meeting at the annex. They openly stand for the complete overthrow of the American system of government and its replacement by a system of absolute liberty. But it should not be permitted to grow by new drafts from the same source of alienism. America cannot go forward by returning backward to the experience of oppressed and backward Europe.—Chicago Tribune.

## Germany's Opportunity.

It is ominous that the German Socialistic Republic is unwilling to summon a constituent assembly to determine on the government of the country. A government of 100 or 1,000, Kaiser, or even a government of 100,000, government by one. The German democrats have a magnificent opportunity to erect a Temple of Freedom of the ruins of the empire, but rule by self-appointed soviets, or by soviets elected only by the proletariat, is not a government by the people. The middle classes, the backbone of any country and if Germany is going to prosper the them its fate will be unlike that of Russia.—Philadelphia Record.

## Remove the Fangs First.

There was a kindhearted farmer who found a snake nearly frozen on the road. Picking it up, he put it in his bosom to warm it. Then the snake revived and stung its benefactor, who with his last breath deplored the folly that was a very foolish farmer, which ever account is true. We have caught the German snake; let us draw its fangs. It has been stated that it will take Germany 20 years to pay off in money the material damage that she has caused, in so nothing of the loss that can never be replaced. Before that time is fully paid she should not be admitted to the community of civilized nations.—New York Herald.

## GRANVILLE

(Special to The Advocate.)  
Granville, O., Nov. 20.—The Russian program of the Travelers' club was continued Monday afternoon with the vice president, Mrs. E. F. Houskins presiding. Russia in 1894-1925 has emerged from barbarism and under the Great Peter has become a world-power. At his death the succession falls to his consort, Catherine I., a former walt and slave whom he had married and elevated to the throne; then to Anne, his niece, and finally to Elizabeth, his daughter, who fought the Hohenzollerns power in Prussia with extreme hatred and great success. The Greek church in Russia, which last summer celebrated its ninth hundredth anniversary in the country, was also a feature of the program. "Peter the Great" was presented by Mrs. Brumback; "The Three Emperors" by Mrs. Burton Case, and "The Greek Church in Russia," by Miss Martha McGinnis. "Catherine the Great," and "The Russian Novel," will be interesting topics for next week's meeting. The Granville Mothers' club with Mrs. C. D. Coons as president, is a

flourishing organization, having for its inspiration and incentive the child welfare of the community. This company of young mothers is the committee on child welfare in the council of national defense—women's committee—to whom was entrusted the work of weighing and measuring babies last summer, so successfully carried out. In accordance with the policy of the state the follow-up work is being planned, one of the immediate objects being to annex a room for the Granville library which shall be thoroughly equipped for children's use exclusively and in which the story-hour may be resumed.

The food sale last Saturday afternoon in Geach's hardware store, was the first of a series of enterprises to raise the money. At this sale the club cleared \$25 in a legitimate business transaction, which commends itself to the Granville public. Anyone interested in the projected work may contribute money.

Mr. and Mrs. E. F. Hobart, who have been anxious over the long silence of their grandson, Franklin Hobart, who has been in action in France, were made happy yesterday by official tidings of his safety. His father, Charles Hobart of Sellersville, Pa., received the word which he forwarded in a telegram. Young Hobart, who was employed in Akron, went with an Akron company and has been overseas since last summer.

At 7 o'clock this evening the second session of the community training school will be held in the Baptist church. There is still opportunity for enrolling and those who are preparing themselves for better service in Sunday school work should avail themselves of this unusual privilege.

The War Mothers of Granville and vicinity are requested by the president of their organization, Mrs. S. Graham, to meet in the Presbyterian church at 9:45 o'clock, Thursday morning, in order to attend in a body the Union Thanksgiving service in the Methodist church.

Dr. and Mrs. Elbaugh will enjoy a family reunion on Thanksgiving day at their home on Prospect hill, relatives from New York and Chicago being expected.

The classes in nurses' training this afternoon and evening are having a recess as the instructor, Mrs. Ray, has gone to Camp Sherman with her family to witness the review of the troops.

The mid-week service of the Presbyterian church will be held on Wednesday evening of this week instead of Thursday evening, as is customary, and in connection with this service there

## AMERICAN MEN AND WOMEN IN FIGHTING TRIM

They Keep To The Top  
Notch of Health

The spirit of the times demands perfect health and nerves, and keeping them up to the highest degree of efficiency.

Wise men and women have learned that it does not pay to allow health to run down. They take care to take advantage of Nature's greatest tonic, red blood and nerve tonic. Phosphated Iron, the minute they feel they are slowing up.

Whatever your work may be there is no reason why it should continue to tire you; work should only use the right amount of your energy. If you are trying to work on your nerves and forcing yourself that wastes your strength, runs you down, gives you those restless nights, loss of appetite and indigestion, when you get up in the morning as tired as when you went to bed.

There is no sense in anyone being a victim of ill health, poor blood, overwork, nerves or the blues when Phosphated Iron will afford such prompt and permanent relief.

All over the country men and women in every walk of life lay their good health, strength and nerves of iron to the use of Phosphated Iron, the red blood and nerve builder, and it will also put you on your feet, make you feel like a live one, it produces results that no other tonic can.

To insure permanency and their patients getting the genuine Phosphated Iron, the genuine Phosphated Iron, do not take pills or tablets. Insist on capsules.

The Masonic Dancing Club will open its series of winter dances Wednesday evening, Nov. 27th, at the Masonic Temple. All Masons in the City and County are extended an invitation to attend the series. The entire series of dances promises to be well attended as the committee in charge of disposing of the tickets has met with much success. The dance tomorrow evening will be informal and light refreshments will be served.

So charmingly informal that it seemed a bit of a personal conversation, Dr. Edwin Hamilton of Columbus, talked before the Monday Talks members of the Federated Clubs and guests at Taylor hall, Monday evening. He came at the invitation of the Monday Talks and was introduced by Rev. L. P. Franklin. Dr. Hamilton was in Germany before America declared war. He served through the Red Cross and was in charge of a hospital. Of their philosophy of life and of their viewpoint he told. He was in Germany at the time of the sinking of the Lusitania. A large number were fortunate enough to hear Dr. Hamilton.

The members of White Carnation Review, Ladies of the Macabees have invited the soldiers and sailors of the city to be their guests at a dance which is being given by them on Wednesday evening of this week at Assembly Hall.

## KIWANIS CLUB HOLDS INTERESTING MEETING MONDAY

The Kiwanis club met Monday noon at the Masonic temple with a large number of members in attendance. Harry Scott of The Old Home Building Association was introduced by President Galt as the new member of the club.

The entertainment committee introduced Private Paul L. Wheeler of the Lumber division, who was injured and just returned home recently. Private Wheeler related some very interesting experiences of soldier life and his remarks were greatly appreciated by the members present.

Robertan Charles F. Hollander was another guest of the club. Mr. Hollander explained to the members why the Newark Telephone company was asking for an increase rate for telephone service. Much interest was taken in his talk.

## ASKS DONATIONS TO TO SCHOOL POOR FUND

For the past seven years it has been customary in the public schools for the teachers and children to make a list of the needy and to collect for them. The first collection of this kind was taken in 1911 when the amount collected was \$73.95. There has been a gradual increase from year to year and last year the amount was \$421.21. This money is turned over to the attendance officer, Frank G. Huddle, who purchases shoes and other clothing for the needy children. Last year from 50 to 75 children were helped by the money contributed to this offering.

These children would have been obliged to remain out of school much of the time if they had not secured shoes and other articles of clothing. This year the schools are taking up the same kind of collection and school authorities hope that the parents will encourage children to make a large contribution to this fund. Every cent of money collected goes to the poor children of the city.

## MAIL CAN'T KEEP UP WITH MOVING TROOPS

Private Orville W. Thompson, Co. A, 15th Infantry, writes his home in Black River, Mo., that he has run across two home fellows but that it is some job to find them. His letter reads: "I suppose you think I am never going to write but I have been moving around so much the last three or four weeks and didn't have an address. I haven't gotten any mail at all for a month now but may be lucky enough to get some here. The only letters I got from you were addressed to me in the states. I got three letters from you while at that training camp when I wrote to you soon in September. It is getting pretty cool here now and frosts nearly every night. I have been fortunate enough to see two fellows over here I knew, but it is some job to find them."

## ASKS EMPLOYERS TO HELP PLACE WORKERS

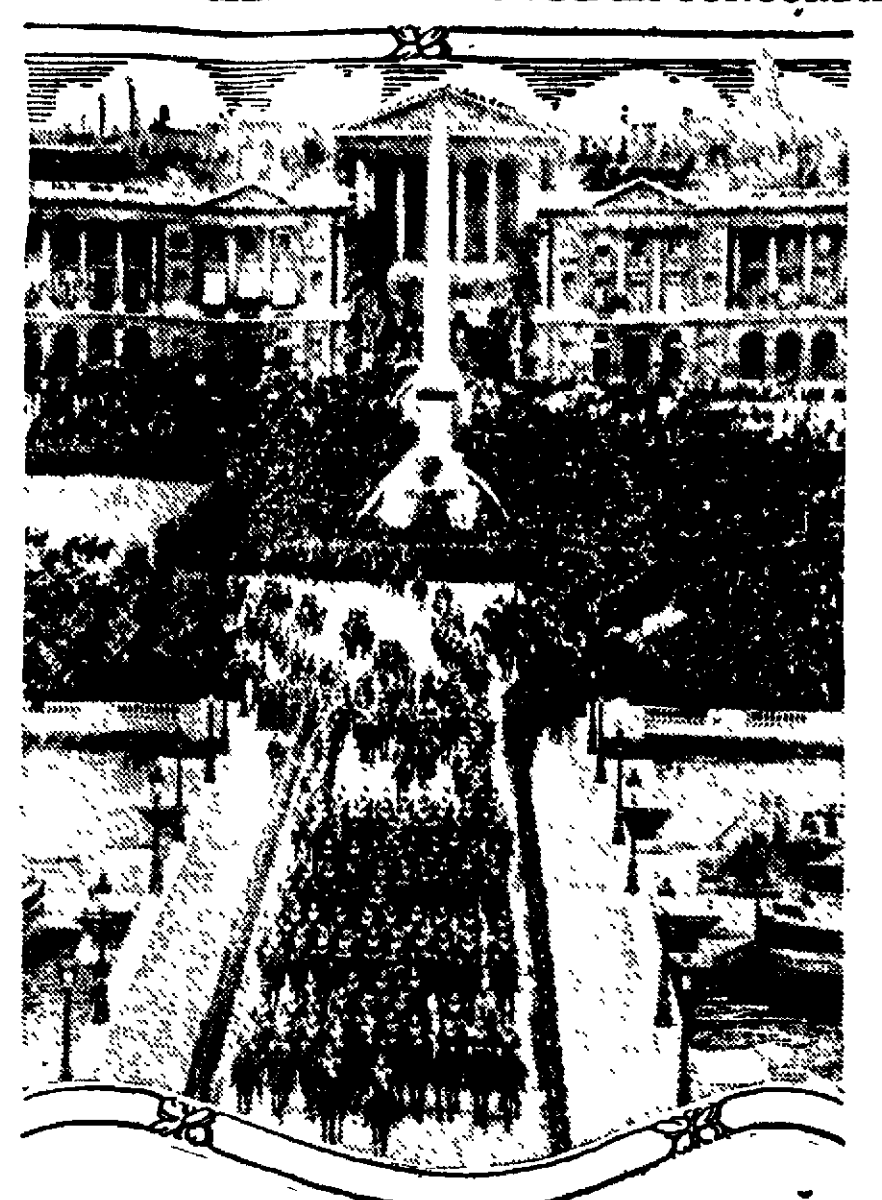

Columbus Nov. 26.—A plea to non-war employers not to discriminate against employees who left to get into urgent war work in the late crisis, was issued by the federal community labor board of Columbus today.

After formerly receding all acts incident to the withdrawal of labor from non-war work, the board made this declaration.

As these withdrawals cease, men will probably seek to return to their former positions. In one such case it developed that the employer told the man he had no place for him. It would be unfortunate if these situations were multiplied.

The board believes that it is the patriotic duty of every citizen at this time to help us wholeheartedly in the adjustment of affairs as he did at a short time ago in winning the war.

## U. S. PEACE DELEGATES MAY RESIDE IN APARTMENTS ON PLACE DE LA CONCORDE

View of Place de la Concorde in Paris, taken when King George and Queen Mary of England arrived for their Entente Cordiale visit with President and Madame Poincaré four years ago.

Late dispatches state that the American delegates to the peace conference and the members of their party may be quartered in buildings on the Place de la Concorde in Paris during their stay. Apartments there would bring the American folk into one little colony and give them a view of one of the beauty spots of Paris.

"Seein' Things At Night"

TO MOTHERS! Guard your kiddies against torpid liver, sour stomach, constipated bowels which generate poisons. These "inside" poisons circulate to the brain, producing bad dreams, then a feverish head. Unless you "work" out these poisons you will have a real sick youngster shortly. Cascarets are a candy cathartic, ideal for children. Cost only 10 cents a box. Read below!

Children love Cascarets because they taste like candy. When your child has a white tongue, feverish breath, foul stomach, give Cascarets anytime to "work" the nasty bile, souring food and bowel poison from the clogged-up places. You needn't coax even cross, sick children to take these harmless candy "Cascarets." They never gripe—never injure. Cascarets never disappoint the worried mother. Each 10 cent box contains directions and dose for children aged one year old and upwards.

**Cheap, quick way to stop rheumatism**

Try toning your digestive and eliminative organs with NR. Free your body from poisonous waste and relief is quick.

**One Day's Test Proves NR Best**

Are you willing to be convinced that a sore, stiff, aching joint or muscles can be relieved and rheumatism greatly benefited if not entirely conquered, for the insignificant sum of 25c?

Sounds too good to be true, doesn't it, yet thousands of people who had rheumatism have found that it can be done and thousands more are doing it today.

You've tried the high priced, expensive things, found that they failed—you still have your trouble, why not try this simple, economical, yet sensible plan, and let results speak for themselves?

Just get a 25c box of Nature's Remedy (NR Tablets) and begin taking it tonight. It acts on the digestive and eliminative organs, improving digestion and assimilation and cleansing the body of accumulated waste, impurities and poisons. With good digestion and assimilation, the body is nourished and vitality and natural power of resistance against disease greatly increased. With the kidneys and bowels acting vigorously and regularly and the body freed from irritating poisons, relief must come.

Nature's Remedy (NR Tablets) though mild and gentle in action, does its work thoroughly and quickly. There is nothing harmful in it, nothing to upset the stomach, nothing to griping pain or any discomfort. The only result is pleasant, glorious, welcome relief and health.

Try it—you take no risk in doing so for Nature's Remedy costs only 25c (enough to last twenty-five days), and is sold with the distinct understanding that it must relieve and benefit or money back.

More than one million people in this country are using Nature's Remedy today. Five million boxes are used every year. What better proof of its great merit could be offered? It is sold, guaranteed and recommended by your druggist?

**GUARANTEED RELIEF FOR RHEUMATISM, LUMBAGO AND ALL MUSCULAR SORENESS**

**20th Century Liniment Guaranteed By All Good Druggists**

**THROAT, CHEST AND LUNG TROUBLES**

Mother—Just Rub This Over Throat and Chest—Relieves by Inhalation and Absorption.

You simply apply a small quantity of Famous Forkola over the throat, chest and back, covering with a warm flannel cloth. The body heat releases the ingredients that are inhaled in the form of vapors, while the penetrating oils and fats are quickly absorbed through the pores, healing and soothing the tired, aching throat and chest.

Remember, there is nothing so good for bronchitis, sore throat, stiff neck, lameness or sore muscles, and that results are guaranteed. If you don't find quick relief, take the bottle back to your druggist and get your money back. What this truly wonderful liniment has done for others it can do for you also.

Stop in and get a bottle today. T. J. Evans or any druggist can supply you.

All night long the good work goes on, loosening the phlegm, opening the inflamed membranes and soothing up the air passages.

Go to your druggist and ask for a small jar of Famous Forkola and begin the treatment at once. Thousands have used the Forkola treatment in case of malarious internal dosing for Colds and Catarrh, Sore Throat, Bronchitis and even Influenza and Pneumonia. Your druggist or ERMAN'S Drug Store can supply you.—Adv.

TO RELIEVE CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

Persons suffering from catarrhal deafness or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is afflicted with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parment (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parment is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes and thus to equalize the air pressure on the drum, but to correct any excess of secretion in the middle ear, and the result it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling hissing sounds in their ears, should give this recipe a trial.

T. J. Evans.

RELIABLE METHOD OF HAIR CARE

Hair is by far the most conspicuous thing about us and is probably the most thing damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that cleanses and entirely removes all dirt, dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of Cantbrox (which you can get at any druggist) in a cup of hot water. This makes a cup of suds which, if you wash with it, is easy to apply to all the hair in the head of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling, rather cleansing feeling. The scalp spotlessly clean, soft and pliant, the hair takes on the glow, brightness of natural color, also a brightness which makes it seem much better than it is. After Cantbrox shampoo, arranging the hair is a pleasure.

Try Making Your Own Cough Remedy

You can save about \$2. and have a better remedy than the ready-made kind. Read below.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, certified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never oppresses.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the raw, irritated throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with clear directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

PORK AND BEANS AHEAD OF TOAST

Lima Woman Says Eat Substantial Foods and Gain Strength.

After many months of stomach trouble during which time she was compelled to live on a light diet of toast, milk and eggs, Mrs. E. S. Carter, 1064 Arch avenue, Lima, is now eating such substantial foods as pork and beans. She also eats pie, cake, pickles, onions and meats.

"It's all due to Tanlac the way I am now eating," says Mrs. Carter, in discussing the matter of diet. "I not only suffered with stomach trouble but I was very nervous, too. At times I felt gloomy—as if something dreadful was going to happen. I had a pain under my right shoulderblade which almost took my breath away. I didn't dare eat anything rich. Even toast and cereals caused gas to form. My heart beat so fast I was afraid I was going to have serious trouble with it."

"While visiting my brother he told me about Tanlac and I tried it. It brought me wonderful relief. It wasn't long until I could eat anything I wanted. Such foods as pie, cake, pickles, onions and meats did not distress me in the least."

"Tanalac took away all the gas and bloating and pain and I am as well now as I ever was in all my life. It has strengthened me and given me a good appetite."

Tanalac may be obtained in Newark at Erman's Arcade Drug store. Tanlac may also be procured at the Evans Pharmacy (Warden Hotel block, east side of square, Newark), and the Helron Drug store, Helron, O.—(Adv.)

Is used by entire families because it is purely vegetable, does the work and costs very little.

Why pay high prices for Liver and Bowel remedies when none are better than the Carter's K. and B. Tea, which is purely vegetable, can be brewed at home, and a small package will last a long time?

Thousands of old people will tell you they have been drinking it for years, and after the liver and bowels have been put in fine condition in a few days by a before bedtime cup, that only an occasional cup is afterwards necessary to keep one feeling fit and fine.

People who drink a cup of Dr. Carter's K. and B. Tea once in a while, seldom, if ever have any bilious attacks, sick headache or sallow skin. It's good for boys and girls, especially those who are peevish and fretful. Druggists have been selling it for many years.—Adv.

**POWERFUL PILE REMEDY DISCOVERED**

Has never Failed to End Most Obstinate Case of Piles in Few Days.

For years it has been proved that so-called external remedies applied to or inserted in the rectum cannot cure piles, and at the best can only cause temporary relief. Surgical operations also do not remove this cause, but simply the formation.

This wonderful prescription known as Miro Pile Remedy, is so efficient in the treatment of piles, that even chronic cases of from 20 to 30 years standing with profuse bleeding have been completely cured in from three to ten days. Think of it! Just a few doses of a carefully balanced prescription, and the most persistent case of piles is absorbed, never to return.

Just read what Henry J. Stone of the Lorain, Ohio, Fire Department says:

All pharmacists dispense Miro or can get it for you on short notice. Surely it's worth the little trouble to obtain it to be rid of piles forever.

IMPORTANT: What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Ointment has been prepared as in these cases it is not necessary to take the internal prescription. For sale at T. J. Evans' Pharmacy. (Adv.)

**BE PREPARED FOR GRIPPE-INFLUENZA**

Advices Calling a Physician, but Take Precautions While Waiting.

If you ever suspect that you have influenza get in touch with your doctor and do what you can for yourself before he arrives.

Take something for your bowels at once. A good vegetable laxative, such as Dr. Carter's K. & B. Tea or Celery King is best—and be sure and rub Mustarine on your throat and chest. This treatment wards off inflammation, which often results in pneumonia and is used by many of our ablest physicians.

Mustarine is better than any mustard plaster. It will not blister and it has proven of great value in sore throat, chest, colds, bronchitis, tonsillitis and pleurisy. Just rub it on that's all.—Adv.

**VIGOROUS MEN AND WOMEN ARE IN DEMAND**

If your ambition has left you, your happiness has gone forever unless you take advantage of T. J. Evans' magnificent offer to refund your money on the first box purchased if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost. Be ambitious, be strong, be vigorous. Bring the ruddy glow of health to your cheeks and the right sparkle that denotes perfect manhood and womanhood to your eyes.

Wendell's Ambition Pills, the great nerve tonic, are splendid for that tired feeling, nervous troubles, poor blood, headaches, neuritis, restlessness, trembling, nervous prostration, mental depression, loss of appetite and indigestion. You take them with this understanding that in two days you will feel better. In a week you will feel fine, and after taking one box you will have your old time confidence and ambition or the druggist will refund the price of the box.

Be sure and get a 50 cent box today and get out of the rut. Remember T. J. Evans and dealers everywhere are authorized to guarantee them.

**THE MEN IN CLASS A1**

A sound, healthy man is never a back number. A man can be as young, condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The body functions are impaired and the mind and system will always be in ailing order. Your spirits will be enervated, your muscles supple, your mind active, and your body capable of hard work.

Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Hamlin Oil Capsules. They are made of the pure, original, imported Hamlin Oil of the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the important GOLD MEDAL Brand in these boxes, sealed packages. (Adv.)

### Caring for the Teeth.

In the majority of cases the teeth are sufficiently far apart for small particles of food to lodge between them. If these particles are not promptly removed, the heat and moisture of the mouth acting upon them, promote their decomposition and set up an acid fermentation that causes the decay of the enamel and, finally, of the teeth themselves.

When the teeth are decayed this danger is even greater and the results are offensive gases, fever of the breath, poison of the blood and grave injury to the nervous and digestive systems. When possible dental floss should be used after each meal. The wooden toothpick is undesirable as tiny splinters are often left in the gums.

When the teeth are of irregular formation it often happens that the brush does not reach all of the surfaces. In that event they should have treatment once or twice a week with a soft orange wood stick which, dipped in tooth powder or smeared with tooth paste, is used as a cleaner and polisher.

This not only keeps the teeth from becoming yellow, but is discouraging the growth and development of bacteria and prevents the catarrhal irritation that sometimes sets up about the margin of the gums. This leads in time to the recession of the gums and exposure of the teeth where they are not protected by enamel.

In addition to this treatment, the mouth should be rinsed every night with some mild antiseptic solution. Tincture of orris, rose water and alcohol in equal parts, flavored with a drop of bitter almonds, makes a very agreeable mouth wash.

## Our Boys and Girls

A child's supper in cool or cold weather should not be the same as it is in summer time. The child can eat more in winter and their appetite is usually better. It is very much better that the real hearty meal of the day be given the children at noon rather than at night time. This is so that their digestive organs should have their hardest work during the day and not at the time that the child is sleeping.

If care is taken in this direction, their sleep will be sound and the rest refreshing. There is no more perfect food combination for a child's last meal at night than a bowl of cereal and milk followed by a small dish of apple sauce.

A very important factor in the problem of growth in an infant is perfect freedom of motion for its legs and arms and for the respiratory and abdominal muscles. It should be thoroughly understood that pressure on any portion of the body or limbs will produce evil results by displacing organs, which should be allowed to have full freedom of position in their respective places. Clothes which bind in any place are very bad.

## Every Day Etiquette

"How long before the church ceremony at a wedding should the church door be open and as it necessary to have a carpet spread from the door to the altar?" inquired Anna.

"The doors should be opened half an hour before the time set for the ceremony. If the wedding is a small and simple one it is not necessary to have the carpet," advised her elder sister.

## AH! DELICIOUS EPSOM SALTS

Old, nasty metallic taste is all gone now

Instead of asking for the common Epsom Salts, ask for Epsomade Salts hereafter. You will get a big package for only 15 cents. Epsomade Salts looks and acts exactly like Epsom Salts, because it is Epsom Salts combined with fruit derivatives thus making a sparkling, effervescent, lemonade-like drink for the liver and bowels. Take a tablespoonful of this delicious Salts in a glass of cold water when you feel bilious, sick, headachy or constipated and get the quick and splendid action of a dose of Epsom Salts without the horrible taste.

Epsomade Salts will replace the old Epsom Salts, Rochelle Salts, Sodium Phosphate and Cathartic Pills in every home, say local druggists. (Advt.)

## HIGHWAY TO AID FOOD MOVEMENT.

The highway transport committee of the state council of defense is working with the food administration on important reconstruction work. It is promoting the rural motor express to facilitate the work of getting food from the farmers to the seaboard for the starving people over there.

These are some of the reasons for it: Fifty per cent of the products of the farms of the United States would never reach the consumer if it were not for the highways transport.

Upon the American farmer rests the task of feeding not alone America but our army and navy, and he need not hesitate to produce his full capacity since by means of the transport she can get it to market.

Two-thirds more food is to be sent across next year and the highways transports will help to make this possible.—Ohio Defense Council.

## Are Weak Nerves and Lack of Physical Strength Holding You Back in Life?

You Must Have Plenty of Iron in Your Blood If You Want the Power and Energy to Win, Says Physician

When the crushing grip of worry, trials and care saps your vitality and keeps you from the full enjoyment of home, social and business life—take Nuxated Iron and watch its strength-giving, up-building effect—it will increase the strength and endurance of weak, nervous, run-down folks in two weeks' time. In many instances.

"Thousands are held back in life for want of sufficient iron in the blood," says Dr. James Francis Sullivan, formerly physician-in-charge of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital, in commenting on the relation of strong nerves and physical endurance to the attainment of success and power.

"A weak body means a weakened brain; weak nerve force means weakened will power, and like the race horse beaten by a nose, many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood. That irritable twitch, that fit of despondency, that dizzy, fearful feeling—these are the sort of signals nature gives to tired, listless folks when the blood is clamoring for strength-giving iron—more iron to restore the health by enriching the blood and creating thousands of new red blood cells.

"In my opinion the greatest curse to the health and strength of American people of today is the alarming deficiency of iron in their blood. Iron is absolutely essential to enable your blood to transform the food you eat into muscular tissue and brain. It is through iron in the red coloring matter of the blood that life-sustaining oxygen enters the body. Without iron there is no strength, vitality and endurance to combat obstacles or withstand severe strains. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of that virile force and stamina which are so necessary to success and power in every walk of life.

"Therefore, I strongly advise those who feel the need of a strength and blood builder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, then purchase only Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken other iron products and failed to get results, remember that such preparations are an entirely different thing from Nuxated Iron, which has been used and strongly endorsed by many physicians formerly connected with well-known Hospitals, the Hon. Leslie M. Shaw, former Presidential Cabinet Officer, former United States Senator and Vice-Presidential Nominee, Charles A. Towne, former members of Congress, distinguished United States Army Generals (retired), Judge Atkinson of the United States Court of Claims at Washington, and others."

In regard to the value of Nuxated Iron, former Health Commissioner of Chicago, William R. Kerr, said: "As Health Commissioner of the City of Chicago, I was importuned many times to recommend different medicines, mineral waters, etc. Never yet have I gone on record as favoring any particular remedy. But, in the case of Nuxated Iron, I feel an exception should be made to the rule. From my own experience with it, I feel that it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country, and if any endorsement shall induce anemic persons, run-down men and women to take Nuxated Iron, and receive the wonderful tonic benefits which I have received, I shall feel greatly gratified that I made an exception to my life-long rule in recommending it."

Shaw, former Presidential Cabinet Officer, former United States Senator and Vice-Presidential Nominee, Charles A. Towne, former members of Congress, distinguished United States Army Generals (retired), Judge Atkinson of the United States Court of Claims at Washington, and others."

No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks' time in many instances.

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Wm. A. Freeman, Evans' Cut rate store, the Mykrantz Pharmacy, and all other druggists.

## NEWARK BOYS

(Continued From Page 1)

Newark are Corporal Walter Thompson, whose duties are that of gunner, setting, range and elevation, and who is very clever in that work. George Rohan is No. 1 man whose duties are many; one of which is to pull the lanyard that sends the shell on its way.

George Rohan is No. 1 man whose duties are many; one of which is to pull the lanyard that sends the shell on its way. The goods in that "joyous grin of his." A gun section is composed of eight men, with two shifts. Others of Steve's section are the following well known boys: Alvin Gleason, John Mulliken, Ralph Ewings, Lewis Place, and G. Goode. Sergeant Betsy Simpson, chief of second section, has the prize gun crew, and who is a stand-patter on having things just so. Corporal Francis Habin is gunner of this squad and is without doubt, the best in the entire regiment.

Dutch is all set and ready in just a few moments. No. 1 man is Clarence Barcus, who is very fast, and when the command "fire" is given, certainly can send them. Others from Newark are Stewart, Alf Hufman, who can play any position; Shorty Greene and Westley Weekley.

Sergeant George Williams, North Carolina George, is in charge of the third gun section, and George is one of the most popular men in the battery. Corporal Alfred Oberfield is gunner, whose accuracy in data setting is superlative. Poots Raison is No. 1 man and he rides the gun like the B. and O. Others are Harry Richards, August Burt, and E. E. E. and E. C. Goode.

"Sergeant Bill Langman is chief of the fourth section and William puts the pep into things. He has very capable gunners in George Brennan and Elmer Fuller; and a most proficient crew of boys, including Francis O'Shaughnessy, Walter Greeley, Ray, Ed, Murray, Griffith, Thomas Henry, Edward Flanagan and Ernest Poulton.

"Sergeant Bernard Kates is in charge of the instrument detail. Artillery is a job of mechanics, and of problems and figures, and Bernie fills the position most capably.

"Sergeant William Howard, who received compliment as best automobile mechanic in the regiment at Camp Sherman, is now in charge of artillery caissons and wagons, due to the fact of being a horse regiment instead of motorized as we had expected.

"Sergeant Sandy Owens is gas sergeant. He is right there on instructions, if occasion necessitates.

"Sergeant Victor Smith has charge of sections at the picket line which is some three kilometers back of battery proper.

Reamer is nothing but a mechanic and there is nothing about a 155 howitzer he does not know. Bill Vogel is stable sergeant and Battery B's horses are in excellent condition, due to his ability in care. Henry Stauch is saddler, mends harness and keeps it in tip-top shape. Carl Helmutz is blacksmith, a horse-shoer of first rank, who handles the 100-pound horses most handsly.

"Paul Moseman is corporal of machine gun crew. The machine gun is used in case of retreat. Does not look like a work for Paul Charles Gardner, is corporal of machine gun crew, position of much importance. He is an artist in his line and the work is

## Make Your Plans This Week To Do Your Christmas Buying----

We've been talking for the last thirty days of the importance of doing your Christmas buying early this year. It's only four weeks until Christmas, and soon it will be too late for you to be among the shoppers who have made their motto.

### BEGIN EARLY—FINISH EARLY

All lines are now complete, including many beautiful gift pieces in staple lines and in the course of the next week many of these choice pieces will be gone, and you will have to be content with what is here.

## Buying Toys For The Kiddies

Should be taken care of very soon. There's such an abundance now to select from that it will be an easy matter to find something to please every child. Remember there will be no re-orders on toys. Our complete stock is now on display, so in order to avoid disappointing the children, select toy gifts now.

### THE DOLLS ARE ALL HERE

No little girl need be without a new doll for just the kind she wants for Christmas. There are many dressed dolls, dressed in many interesting costumes—or if you prefer to dress the doll yourself you can select from an assortment of undressed dolls.

### THE DRESSED DOLL AT \$1.00

Is a 20 inch doll, dressed in various costumes, including soldier and sailor boys, nurses and maids.

### A FANCY BASKET MAKES A CHOICE GIFT

And there are so many different sizes and kinds to select from, at almost any price you want to pay, from 35c up. You will find bamboo baskets in fruit shapes, sandwich baskets, market baskets, flower baskets, sweet grass baskets, Indian made baskets, baby bassinets, clothes hampers and large clothes baskets.

### WISE GIFT SEEKERS WHO WANT GLOVES

Will buy them now. You know, perhaps from experience, that long before Christmas gloves are hard to get. The assortment of colors becomes picked over, and many sizes are all gone. Now you can select from many beautiful qualities and colors in fine kids, fabric and silk gloves.

## Handkerchiefs Are Always Acceptable

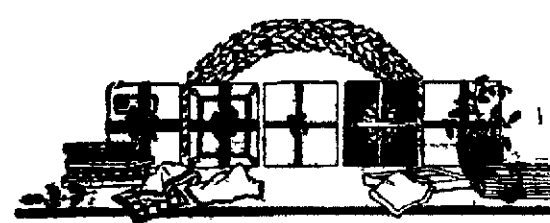

And this year, when practical gifts are the rule, handkerchiefs will be one of the most popular of gift articles. We have so many pretty designs that you can select any number of different kinds at almost any price you want to pay.

### SELECT YOUR TOYS AND FURS NOW

If you are not ready to take them home now, make a deposit on them, and we will hold them until nearer Christmas. As we have told you before, there are two lines that are always selected as gifts and it's the early buyer who gets the choice pieces. The toys are all in, and we cannot procure duplicates.

The choicest furs are all shown early, and what orders we will be able to get, will not be of the fine quality of the early furs.

## EPIDEMIC HITS PUBLIC SCHOOLS

Attendance and Punctuality Suffer as Result of Illness Among Pupils of Newark Schools.

The attendance in the public schools this month has not been so good as in previous months. However, when it is considered that this month's report covers two weeks of time immediately before schools were dismissed on account of the influenza and two weeks since they have re-opened, the per cent of attendance is very commendable. In the matter of tardiness it is natural to expect a few more cases this month due, in a large measure, to the opening of schools 15 minutes earlier in the mornings. The following teachers report no tardiness for the month: Edith Hague, Florence Meyer, Thora MacDonagh, Mary Kulp, Emily Hall, Jessie Browne, Josephine Johnson, Edna Swanson, Daisy Harrington, Katie Murphy, Alice MacMahon, Lula Ampoker, Nellie McNeaty, Doris Avery, Daisy Stuart, Anna Fitzpatrick, Elizabeth Watkins, Louise Africa, Rosa Fugh, Anne Wotring, Gertrude Hall, Ada Simms, May Van Horn, Faith Yingling, Edna Pine, Faye Jones, Margaret Browne, Minnie Wintermantel, Anna Lyon, Marie Lawyer, Louise Eichhorn, Faith Fry, Dora Brennstuhl, Martha Lund, Bess Tarsel, Mabelle Mitchell, Cla Hess, Bess Laird, Gertrude Harrison, Thelma Miller, Laura Broome, Ida Henry, Lillian Cox, Maude Stadden, Ida Davis, Mildred Merklitt, Inez Korb, Edna Warner, Mary Newman, Nellie Bradock, Esther Banton, Lillian Seymour, Louise Wulfoop, Gertrude Avey, Bertie ones, Florence Boyd, Mary Raymond, Mary Adam, Martha Sininger, Florence Hart. Two buildings in the city should be commended for no tardiness—Riverside and Texas.

The Thalian girls of the high school, under the leadership of Miss Mary McCure, conducted a "tag day" last Saturday for the benefit of the public library. The amount collected exceeded all expectations for at the close of the day it was found that \$500 had been contributed. Since The Newark Advocate printed the tags gratis, this entire sum will be turned over to the trustees of the library. The young ladies of the Thalian society and Miss McCure deserve great credit for the success of the undertaking. When Mr. Moninger turns over the proceeds of the lecture course, the total amount contributed to the library through the efforts of the high school will be considerable more than a thousand dollars. Plans are being made to have the grade schools of the city do their part for the library and it is hoped that before the end of the year several hundred dollars may be added to the fund.

The lecture course, under the direction of Principal Moninger, started off with a great boom. The entire auditorium was sold out on the day of reservation. Next Friday evening, the next number—The Tschukowsky Quartet—will be given.

Last week the Women's Relief corps presented a beautiful flag to the East Main street school. Eleven members of the corps were present. The superintendent in behalf of the schools desires to express to this organization his appreciation for the very appropriate

gift. The following patriotic program was given:  
Song—"We're Going Over".....Pupils  
Recitation—"Our Pershing Is Going Over the Sea".....Sonia Dock  
Song—"Keep the Home Fires Burning"  
Honors to the Colors.....Pupils  
Presentation of Flag.....Mrs. Duerr  
(Patriotic Instructor of the Corps)  
Received by Principal.

Patriotic Address.....Colonel Hunt  
"America".....  
The football team of the high school has not had much chance this year to show its skill, but judging from last Saturday's game at Columbus "we are certain that if the season should have played the entire season Newark high school would again have had a championship team. The result at Columbus was: Newark, 19, South High school, 0. The team is being coached by Mr. Millisor of the commercial department of the high school.

The schools will be closed for the Thanksgiving day but contrary to the custom of former years the schools will be in session on Friday after Thanksgiving. A large sign offering for the poor children of the city is being taken in all schools. Last year the collection amounted to \$422.

When we compare the situation in Newark with other cities of the state we are very fortunate as the schools in many places have been closed six weeks on account of the epidemic and it is likely that many of them will remain closed until after the Christmas vacation. (Signed).....Oren J. Barnes, Superintendent of Schools.
